

Using Your Yield Monitor All Year Around

Wednesday, February 24, 2010

9:45 - 3:30 p.m.

4-H Convention/Food Stand Bldg.

12th & Bridge

Clay Center Kansas

Do you have a monitor that hangs in the cab and is only used for a month or only there to look at while you're sitting in the combine or planting?

Come to this workshop and learn how you can gain more useful information all year around.

Featured Topics:

- Collecting good data
- What equipment needed to collect data
- What you can collect to help understand your colored map
- Using software at home to see your maps your monitor has made
- Examples of what other people have & are collecting

Speakers : Scott Staggenborg , Randy Price , Lee Scheufler , Chris Pachta , Dave Wilcox

- Equipment & Technology Overview
 - *John Deere
 - *CNH - Case-New Holland
 - *Ag Leader
 - *On-Farm Analysis Software (Farmworks , SMS , Mapshots)
